

# MATERIAL SAFETY DATA SHEET

## MSDS L-101 REVISION 7

THE DIAL CORPORATION  
TECHNICAL AND ADMINISTRATIVE CENTER  
15101 NORTH SCOTTSDALE ROAD  
SCOTTSDALE, ARIZONA 85254

MEDICAL EMERGENCIES: 1-888-689-9082  
CHEMTREC: 1-800-424-9300 (24 Hours Daily)  
OTHER INFORMATION: 1-888-468-6673

### SUBSTANCE IDENTIFICATION

SUBSTANCE: HEAVY DUTY LAUNDRY BAR SOAP  
TRADE NAMES/SYNONYMS: **FELS-NAPTHA® HEAVY DUTY LAUNDRY BAR SOAP**  
CHEMICAL FAMILY: Mixture  
I.D. NUMBERS: 904439

NFPA RATINGS (Scale 0-4, where 4=high degree of hazard): HEALTH=1 FLAMMABILITY=1 REACTIVITY=0  
HMIS RATINGS (Scale 0-4, where 4=severe hazard): HEALTH=1 FLAMMABILITY=1 REACTIVITY=0

This product is labeled in accordance with regulations administered by the Consumer Product Safety Commission. The use pattern and exposure in the workplace are generally not consistent with those experienced by consumers. The requirements of the Occupational Safety and Health Administration applicable to this Material Safety Data Sheet differ from the requirements of the CPSC and as a result, this MSDS may contain additional health hazard information not pertinent to consumer use and not found on the product label.

### HAZARDOUS INGREDIENT INFORMATION

COMPONENT: SODIUM SOAP CAS# 67701-11-5 & 67701-10-4  
SOAP DUST = PARTICULATES NOT OTHERWISE CLASSIFIED (PNO):  
15 mg/m<sup>3</sup> OSHA TWA (total dust); 5 mg/m<sup>3</sup> OSHA TWA (respirable fraction)  
10 mg/m<sup>3</sup> ACGIH TWA (total dust); 3 mg/m<sup>3</sup> ACGIH TWA (respirable fraction)

COMPONENT: HYDROCARBONS, TERPENE PROCESSING BY-PRODUCTS CAS# 68956-56-9

Carcinogen status of components: Not listed as carcinogenic by NTP, IARC, or OSHA.

### PHYSICAL AND CHEMICAL DATA

DESCRIPTION: Tan or brown bar. SOLUBILITY IN WATER: Nearly complete.

### FIRE AND EXPLOSION DATA

FIRE AND EXPLOSION HAZARD - The fire hazard for this product has not been determined. The hazard(s) of the component(s) with the most severe hazard(s) are:

Slight fire hazard when exposed to heat or flame.

FIRE FIGHTING MEDIA - Dry chemical, carbon dioxide, water spray or regular foam. For larger fires, use water spray, fog or regular foam.

FIRE FIGHTING - Do not scatter spilled material with high - pressure water streams. Dike fire-control water for later disposal. Use agents suitable for type of surrounding fire. Avoid breathing hazardous vapors, keep upwind.

---

**HEALTH HAZARD DATA**

---

NOTE: The acute health effects described below are those which could potentially occur for the finished product. They are based on the toxicology information available for the finished product and/or each hazardous ingredient, and are consistent with the product type and the likelihood of a specific route of exposure. Known chronic health effects related to exposure to a specific ingredient are indicated.

**ACUTE HEALTH EFFECTS:**

- INHALATION:** Dust may cause mild irritation of the mucous membranes.
- SKIN CONTACT:** May cause irritation with drying, redness, and cracking due to the defatting action on the skin. Dermatitis may result from repeated or prolonged contact.
- EYE CONTACT:** May cause irritation.
- INGESTION:** Ingestion may cause irritation of the throat and gastrointestinal tract, nausea, vomiting, and diarrhea. Aspiration into the lungs could possibly occur causing chemical pneumonitis and pulmonary edema.

**CHRONIC HEALTH EFFECTS:** None known.

**MEDICAL CONDITIONS GENERALLY RECOGNIZED AS BEING AGGRAVATED BY EXPOSURE:** Pre-existing skin conditions.

---

**EMERGENCY AND FIRST AID PROCEDURES**

---

**INHALATION:** Immediately remove from exposure area to fresh air. Keep affected person warm and at rest. Treat symptomatically and supportively. Contact physician or local poison control center. If breathing has stopped, give artificial respiration, and get medical attention immediately.

**SKIN CONTACT:** Rinse affected area with plenty of water until no evidence of product remains. Get medical attention if irritation persists.

**EYE CONTACT:** Immediately rinse eyes with plenty of water, occasionally lifting upper and lower lids, until no evidence of product remains. Get medical attention if pain or irritation persist.

**INGESTION:** Immediately get medical attention. DO NOT induce vomiting. Treat symptomatically and supportively. Maintain airway and respiration. If vomiting occurs, keep head below hips to prevent aspiration. Dilution by rinsing the mouth and giving water or milk to drink is generally recommended. If unconscious, the victim should not be given anything to drink.

---

**REACTIVITY**

---

REACTIVITY - Stable under normal temperatures and pressures.

INCOMPATIBILITIES: Strong oxidizers, acids, bases, chlorine.

DECOMPOSITION - Thermal decomposition may release toxic and/or hazardous gases.

POLYMERIZATION - Hazardous polymerization has not been reported to occur under normal temperatures and pressures.

---

**STORAGE AND DISPOSAL**

---

Store away from incompatible substances. Observe all federal, state and local regulations when storing or disposing of this substance.

---

## CONDITIONS TO AVOID

---

May burn but does not ignite readily. Avoid contact with incompatible substances and excessive heat.

---

## SPILL AND LEAK PROCEDURES

---

OCCUPATIONAL SPILL - Sweep up and place in suitable clean, dry containers for reclamation or later disposal. Do not flush spilled material into sewer. Keep unnecessary people away.

---

## OCCUPATIONAL PROTECTIVE EQUIPMENT

---

VENTILATION - Provide local exhaust ventilation to meet permissible exposure limits where generation of dust is likely to occur.

RESPIRATOR - Air contamination monitoring should be carried out where generation of dust is likely to occur to assure that the employees are not exposed to harmful concentrations exceeding permissible exposure limits. If respiratory protection is required, it must be based on the contamination levels found in the workplace, must not exceed the working limits of the respirator and be jointly approved by the National Institute for Occupational Safety and Health and the Mine Safety and Health Administration (NIOSH-MSHA).

FOR FIRE FIGHTING AND OTHER IMMEDIATELY DANGEROUS TO LIFE OR HEALTH CONDITIONS - Any self-contained breathing apparatus that has a full facepiece and is operated in a pressure-demand or other positive-pressure mode. Any supplied-air respirator that has a full facepiece and is operated in a pressure-demand or other positive-pressure mode in combination with an auxiliary self-contained breathing apparatus operated in pressure-demand or other positive-pressure mode.

CLOTHING - Protective clothing is required where repeated or prolonged skin contact may occur.

GLOVES - Chemical-resistant gloves are required where repeated or prolonged skin contact may occur.

EYE PROTECTION - Dust-proof safety glasses are required to prevent eye contact where dusty conditions may occur.

---

## REGULATORY INFORMATION

---

DOT FLAMMABILITY CLASSIFICATION:	Not applicable.
EPA - SARA TITLE III SECTION 313:	Not applicable - Consumer product.
TSCA:	All components of this product are listed or are exempted or excluded from listing on the U.S. Toxic Substances Control Act (TSCA) chemical substance inventory.
