CLAUSEN
CARPET SOLUTIONS

CARPET RINSE & CONDITIONER

NEUTRALIZES pH PREVENTS BROWNING

REMOVES RESIDUE THAT ATTRACTS SOIL

SAFE ON ALL FIBERS INCLUDING WOOL

LEAVES ENTIRE AREA WITH FRESH AROMA

DESCRIPTION

Removes the last of soil and residue that attracts dirt and starts re-soiling. . . Neutralizes pH to prevent browning, thus brightens colors without optical bleach. . . Contains a proven odor counteractant to remove foul odors from the carpet and radiates a clean, fresh aroma where used.

USES

As a final rinse and conditioner after extraction, bonnet cleaning or shampooing to extend periods between cleaning. Safe for all carpet fibers including wool and all modern carpet backing.

HOW TO USE

For best results apply after cleaning while carpet is still damp. Typically 2 or 3 ounces per gallon of water are sufficient for either rinse or spray.

TO RINSE - Apply dilute solution through extraction machine as you would an extraction cleaner. Rinsing after rotary shampooing may require defoamer in the recovery tank.

SPRAY APPLICATION - Apply dilute solution with a plastic garden pump up sprayer in a medium spray to reach down in to the pile.

REMOVING SPOTS OF BROWNING - Blot area with dilute solution on a white cloth.

PACKAGING

Available in gallon containers.

BENEFITS

COMPLETES CLEANING - With the furniture already moved, equipment on the site and the cleaning already done, do the job right and rinse.

NEUTRALIZES - Balances pH to prevent the tendency of some carpeting to gradually turn brown after wet cleaning.

RETARDS RE-SOILING - Removes the sticky residue left by ordinary shampoo that promotes re-soiling.

SAFE TO USE - Safe on all colorfast carpet fibers including wool and on all modern carpet backing.

DEODORIZES - Contains a proven odor counteractant to eliminate that "wet dog" smell of some carpet after being wet.

SPECIFICATIONS

APPEARANCE...hazy liquid
REFRACTIVE INDEX...1.338 ± .0.01
pH...3.0 ± 0.5
ODOR..pleasant, indeterminable
ODOR COUNTERACTANT..yes
STABILITY...2 year shelf life
ANTI-REDEPOSITION AGENT...yes
